The iconic, landmarked **MANHATTAN HOUSE** has been impeccably re-engineered by O'Connor Capital Partners with one- to five-bedroom residences for immediate occupancy. O'Connor recently unveiled The Modern Collection, a portfolio of signature-designed residences by James Huniford, Celerie Kemble and Rita Konig, in response to growing demand for larger residences in Manhattan.

Set within one of Manhattan's largest private residential gardens, Manhattan House features the rooftop Manhattan Club and exhale® spa. There is a children's playroom and exhale® fitness center, full-time doormen, five-star concierge services, porte-cochere entrances, on-site garage and valet service.
