Unframed 2010 hosted by Nicole Miller, Margaret Russell, and Kenny Scharf invited an intimate group of guests to the Manhattan House for a cocktail celebration in honor of the collector's preview presented by Elle Decor.

Unframed has been a NYC art exhibition staple, providing Big Apple residents with incredible and innovative events for twenty years. Several premier artists have contributed unique collections of work in all various media forms.

Proceeds from the event benefited AIDS Community Research Initiative of America, a leading HIV research and education organization. Guests included Brendan Monaghan, Casey Fremont, Bettina Prentice, Tatiana Platt, Ben Bash, Bettina Zilkha, and Emma Snowdon-Jones.
